

RE: CG Docket No. 03-123

Federal Communications Commission

445 Twelfth Street SW

Washington, DC 20554

Dear Chairman Martin, Commissioners  
Adelstein, Gopps, Mc Dowell, & Tate:

I am a deaf person and I use  
Video Relay Service (VRS) to communicate.  
So does my deaf husband. I was  
appalled to learn that the FCC staff  
is intent on drastically cutting the  
VRS rate, & effectively cutting VRS  
availability for the deaf. Instead of  
seeking to limit the number of deaf  
people with VRS access, the FCC should  
do everything in its power to make  
VRS available to more deaf people.

I, along with other Deaf individuals,  
use these services in both my work &  
personal life. It is an important way  
in which I/we communicate with  
both hearing & deaf individuals. I  
urge you to do everything you can to  
make VRS service available to the  
many deaf people who currently do not

have access to this vital,  
life-changing service.

The VRS rate should encourage  
the VRS providers to:

- \* Serve more deaf people, not discourage them from reaching out to more deaf people.

- \* Provide interpreter training program so that there will be an adequate number of qualified interpreters for VRS & the local Deaf Communities.

- \* Provide service & technology improvements, such as the developments of new videophone equipments fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services.

I, along with other deaf individuals, their families & workers, depend on VRS + other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Terry Ruth & Gabby

~~Wale Hasky~~

- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the ADA to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Signature

RE: CG Docket No. 03-123; TRS Fund—Drastic VRS Rate Cuts

Dear Chairman Martin,  
Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is proposing a drastic cut to the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the ADA to provide deaf people with functionally equivalent telecommunications services.

Sincerely,
